

FOR IMMEDIATE RELEASE

**Sullair Offers Compressed Air Filtration Literature**

(Michigan City, IN, August 15, 2005) – Sullair Corporation has revised its compressed air filtration literature. Sullair filters, which protect plant equipment and processes, help to improve product quality and reduce energy costs.

The twelve-page, full-color literature describes in detail the complete range of filters available from Sullair, including particulate, high-efficiency, and odor-removal filters. In addition, the literature highlights Sullair's Oil-Free Air Quality Guarantee as well as the Five-Year filter guarantee.

Also included in the revised literature are in-depth tables describing each filter's specifications, allowing specifiers to review filter capacities, dimensions, and pressure correction factors at a glance.

For further information about Sullair's AirMetrix<sup>SM</sup> program or complete line of industrial compressed air system products, visit [www.sullair.com](http://www.sullair.com), or contact the company at (800) SULLAIR.

**ABOUT SULLAIR CORPORATION**

Sullair is one of the world's leading compressor manufacturers, and is the only air compressor manufacturer to concentrate exclusively on rotary screw technology. Sullair is a company of Hamilton Sundstrand, which is a division of the United Technologies Corporation. Sullair has been an industry leader and innovator since 1965. With subsidiaries in France, China, and Australia, Sullair is also a globally recognized manufacturer of compressed air contaminant removal equipment, vacuum systems, and contractors' air tools.
