

FOR IMMEDIATE RELEASE

Sullair launches fully redesigned, comprehensive web site

(Michigan City, IN, March 30, 2005) – Sullair Corporation has launched its fully redesigned, comprehensive web site at www.sullair.com. The new site illustrates the manufacturer's expertise in compressed air solutions around the globe.

Sullair's new site focuses on the Air Metrix™ program, a systems approach to compressed air technology that helps users reduce energy costs and improve productivity by analyzing, managing, and controlling total compressed air systems. The Air Metrix section highlights the eight components of Sullair's solutions to help keep customers' facilities running smoothly.

The updated site also demonstrates how the Air Metrix program delivers Sullair customers a customized, end-to-end compressed air solution through a range of products, technology, financing, and local support and services.

Also featured on Sullair's new web site is data on the company's full line of rotary screw air compressors, dryers, vacuum systems, and other products from the broad range of energy efficient products.

For further information about Sullair's Air Metrix program or complete line of industrial air compressors, visit www.sullair.com, or contact the company at (800) SULLAIR.

ABOUT SULLAIR CORPORATION

Sullair is one of the world's leading compressor manufacturers, and is the only air compressor manufacturer to concentrate exclusively on rotary screw technology. Sullair is a company of Hamilton Sundstrand, which is a division of the United Technologies Corporation. Sullair has been an industry leader and innovator since 1965. With subsidiaries in France, China, and Australia, Sullair is also a globally recognized manufacturer of compressed air contaminant removal equipment, vacuum systems, and contractors' air tools.
